STREET DIVISION MAINTENANCE UPDATE

STREET SWEEPING:
Supervisor:  Harry Noble  

779 348-7619

Spring residential street sweeping began on April 10, 2017 and was completed on June 14, 2017.

Arterial and Central Business District sweeping cycles will continue throughout the summer months through Mid-September. The fall residential sweeping cycle will commence Mid-September, 2016.

All Street Division Operations are dependent on existing weather conditions and are subject to change accordingly. Citizens are urged to approach Public Works Crews with caution and at a reduced speed that is below posted speed limits.

The City of Rockford appreciates your continued patience and cooperation as we perform our Street Maintenance Activities.

Harrison Avenue Reconstruction Project  
(Harrison Avenue between 9th Street and East of 22nd Street)  
(11th Street between Wills Avenue and South of 23rd Avenue)

Road construction on Harrison Avenue between 9th Street and 20th Street continues for the 2017 season. Currently construction crews are concentrating on the installation of underground utilities along the south lanes of the road as work is now in Stage 2 of the Harrison Avenue project. Stage 2 includes box culvert extension, road widening, new pavement, curb and gutter, medians, sidewalk, sanitary sewer construction, storm sewer installation, water main replacement, new street lights, new traffic signals, and pavement markings. Stage 2 construction is scheduled to continue through the spring and summer of 2017.

During Stage 2, the north lanes of Harrison Avenue will remain open to one lane of traffic each way at this time, with short, intermittent side street closures as the underground work moves through those intersections at various times during this stage.

Crews will be working on the completion of the 20th Street intersection and temporary ramp for the side streets on the south side of Harrison Avenue from the box culvert to the east end of the project. They will also be prepping 11th street for concrete on the west side. Concrete is expected to be poured the week of July 10th, pending any work suspension. Please follow all detours. Temporary lane closures may occur during these periods. Please expect delays.

All work is dependent on the proper weather conditions. Drivers should be aware of work zone speed limits and use caution when driving in these areas.
Lane Closures of North Main Street (IL-2) – Illinois Department of Transportation Roadway Project (Yonge Street to just north of Riverside Boulevard)

During the week of July 3rd, 2017, roadway removal work is underway south of the railroad tracks and pavement removals are underway north of the railroad tracks. Curb work and bike path construction work will be starting behind edge of pavement on the west and east side of N Main. Please be alert for construction activities when driving/Biking/Walking through these areas in the coming weeks. The scheduled traffic lane switch over is set for July 10th. Traffic will be staged on the newly paved west lanes for the duration of the 2017 construction season.

The southbound lanes of North Main Street between Auburn Street and Pierce Avenue will continually be shut down for roadway milling and paving operations for the length of the project until further notice. Southbound and northbound traffic will be two lane traffic for the duration of this work. In addition, western legs of North Main intersections, including: Yonge Street, Wagner Avenue, Burton Street, Custer Avenue, VanWie Avenue, Fulton Avenue, Ford Avenue and Eddy Avenue, will be closed for the duration of traffic staging 2A. This work is anticipated to be completed by the end of July. The northbound lanes of North Main Street between Pierce Avenue and River Bluff will be closed for pavement removal and underground utility relocation work. This closure is anticipated to last for the remainder of the 2017 construction season, unless otherwise notified.

Please note that businesses are open during construction.

On March 22nd, 2017 construction began on the IDOT N Main project. The North Main Street Roadway Project consists of pavement removal, excavation, roadway re-alignment, PCC pavement, HMA pavement, curb and gutter, landscaped median, multi-use path and sidewalk construction, water main replacement, storm sewer installation, landscaping, street lighting, traffic signal modernization and interconnection, pavement markings, erosion control, maintenance of traffic and all other necessary items to complete the improvements.

The City of Rockford appreciates your continued patience and cooperation during this work.

City-Wide Street Repairs 2017 Group No. 1 (Residential)

Construction work began on the City-Wide Street Repairs 2017 Group No. 1 (Neighborhood) project. Full width resurfacing with curb and gutter, sidewalk, ADA ramps, driveway approaches, pavement striping and structure repairs as needed at the following locations:
1) Hedge Cliff Court from Hedge Cliff Drive to Cul-de-sac
2) Hedge Cliff Drive from Hedge Cliff Court to Olde Creek Road
3) Knox Drive from Spring Creek Road to Barrick Drive
4) Old Hunters Run from Private Drive to Glen Devon Road
5) Perietta Lane from Red Oak Lane to Cul-de-sac
6) Ponderosa Drive from Jonquil Place to Cul-de-sac
7) Rubicon Trail from Grayling Drive to University Drive
8) Silverthorn Drive from Sweetbriar Lane to Honeysuckle Drive
9) Tulip Lane from Meander Drive to Centennial Trail
10) Wembly Place from Carrington Chase to Brigantine Lane
11) King Street from Latham Place to Church Street
12) North Madison Street from Y Boulevard to End of North Madison Street
13) Alta Vista Road from Kings Highway to Bradley Road
14) Cinnamon Court from Cinnamon Lane to Cul-de-sac
15) Cinnamon Lane from Pepper Drive to Burningtree Lane
16) Crawford Drive from Lisa Drive to Kimball Road
17) Crofton Drive from Laurelhurst Drive to Andover Drive
18) Deer Pointe from Hermitage Trail to Fox Pointe
19) Lisa Drive from Pepper Drive to Lori Drive
20) Weaver Road from Auto Park Drive to Perryville Road
21) Belden Street from Garfield Drive to Gladstone Avenue
22) Fairview Avenue from Day Avenue to Horace Avenue
23) Garfield Drive from Edgemont Street to Grenshaw Street
24) Gladstone Avenue from Grenshaw Street to Elmwood Street
25) Grant Avenue from Salem Street to John Street
26) Grenshaw Street from Arcadia Terrace to Garfield Drive
27) Henry Street from Yonge Street to End of Henry Street
28) Horace Avenue from Arthur Avenue to Auburn Street
29) Knight Avenue from Rockton Avenue to Edgemont Street
30) Knight Avenue from Grenshaw Street to Virginia Avenue
31) Carney Avenue from Lawndale Avenue to Van Wie Avenue
32) Chateau Lane from Chateau Court to Halsted Road
33) Court Street from Vernon Street to Yonge Street
34) Fremont Street from Burton Street to Quincy Street
35) Grace Street from Grant Avenue to Huffman Boulevard
36) Price Street from Vernon Street to Grace Street
37) Quail Run from Eagle Court to Shalck Drive
38) Tacoma Avenue from Yonge Street to Grace Street
39) Easton Drive from Dorset Drive to Thames Way
40) Lombard Street from Parkview Terrace to Sunnyside Drive
41) Oxford Street from Camlin Avenue to Harper Avenue

<tbody>
<tr>
<td>Ashwington Way</td>
<td>Bainburg Drive</td>
<td>Logistics Pkwy</td>
</tr>
<tr>
<td>Sunbury Drive</td>
<td>Biltmore Chase</td>
<td>Samuelson Road</td>
</tr>
</tbody>
</table>

**WATER QUALITY CONTACTS:**

**Water Quality Group:**

779.348.7151

If discolored water occurs, it is not a health hazard. However, during any flushing procedures, iron (red water) and manganese (black water) may become stirred up within the water main, which can create staining on the porcelain and laundry. This work may result in the disturbance of sediment, possibly containing lead. It is advised that you flush your water lines for 1 – 2 minutes once work is completed in your area including removing and cleaning faucet aerator screens to remove sediment. For this reason it is vital that the public be aware of the time and area that will be affected. If there are any Water Quality questions, please contact water quality at the number listed.

For a detailed map of hydrant flushing locations and when staff will be working in specific neighborhoods, please visit the City’s web site at:
