**Subject:** 18th St, 10th Ave intersection- Traffic Commission

Hi Pablo and Jeremy,

I think a constituent is wanting to put the 18<sup>th</sup> St/10<sup>th</sup> Ave intersection before Traffic Commission coming up. Not sure if you've received the request.

I swung by and took a couple pictures today. The picture below is my car traveling west on 10<sup>th</sup> Ave and stopped where I should be by the stop sign. The retaining wall does impede a line of sight, as you can tell. The constituent indicated there were a couple recent accidents there, too?

This seems to be an intersection where you really have to stick your nose out (traveling west) in order to see oncoming traffic.

Just an FYI for you.

Best,  
Jon

**Subject:** stop sign request

There was a pretty bad accident on 10th Ave and 18th St last week and I have to say I am not surprised. People really fly down 10th Ave. heading west and barely ever stop at the stop sign there. The intersection of 10th Ave and 19th St. is only a 1 way stop also. We need to have a stop sign in place either at that intersection to slow them down so they might actually notice the stop at the 18th St. intersection. I have lived here for 23 years and have seen many accidents at the 18th / 10th Ave intersection. It wouldn't be a bad idea to make this a 4 way stop either. I would appreciate it if you could look into this and hope you can make it happen. I also want to talk about 9th Ave (between 18th St and 19th St). There are so many cars parked up and down both sides of it that you can barely ever get through.

Thanks,

Kat Heitzman

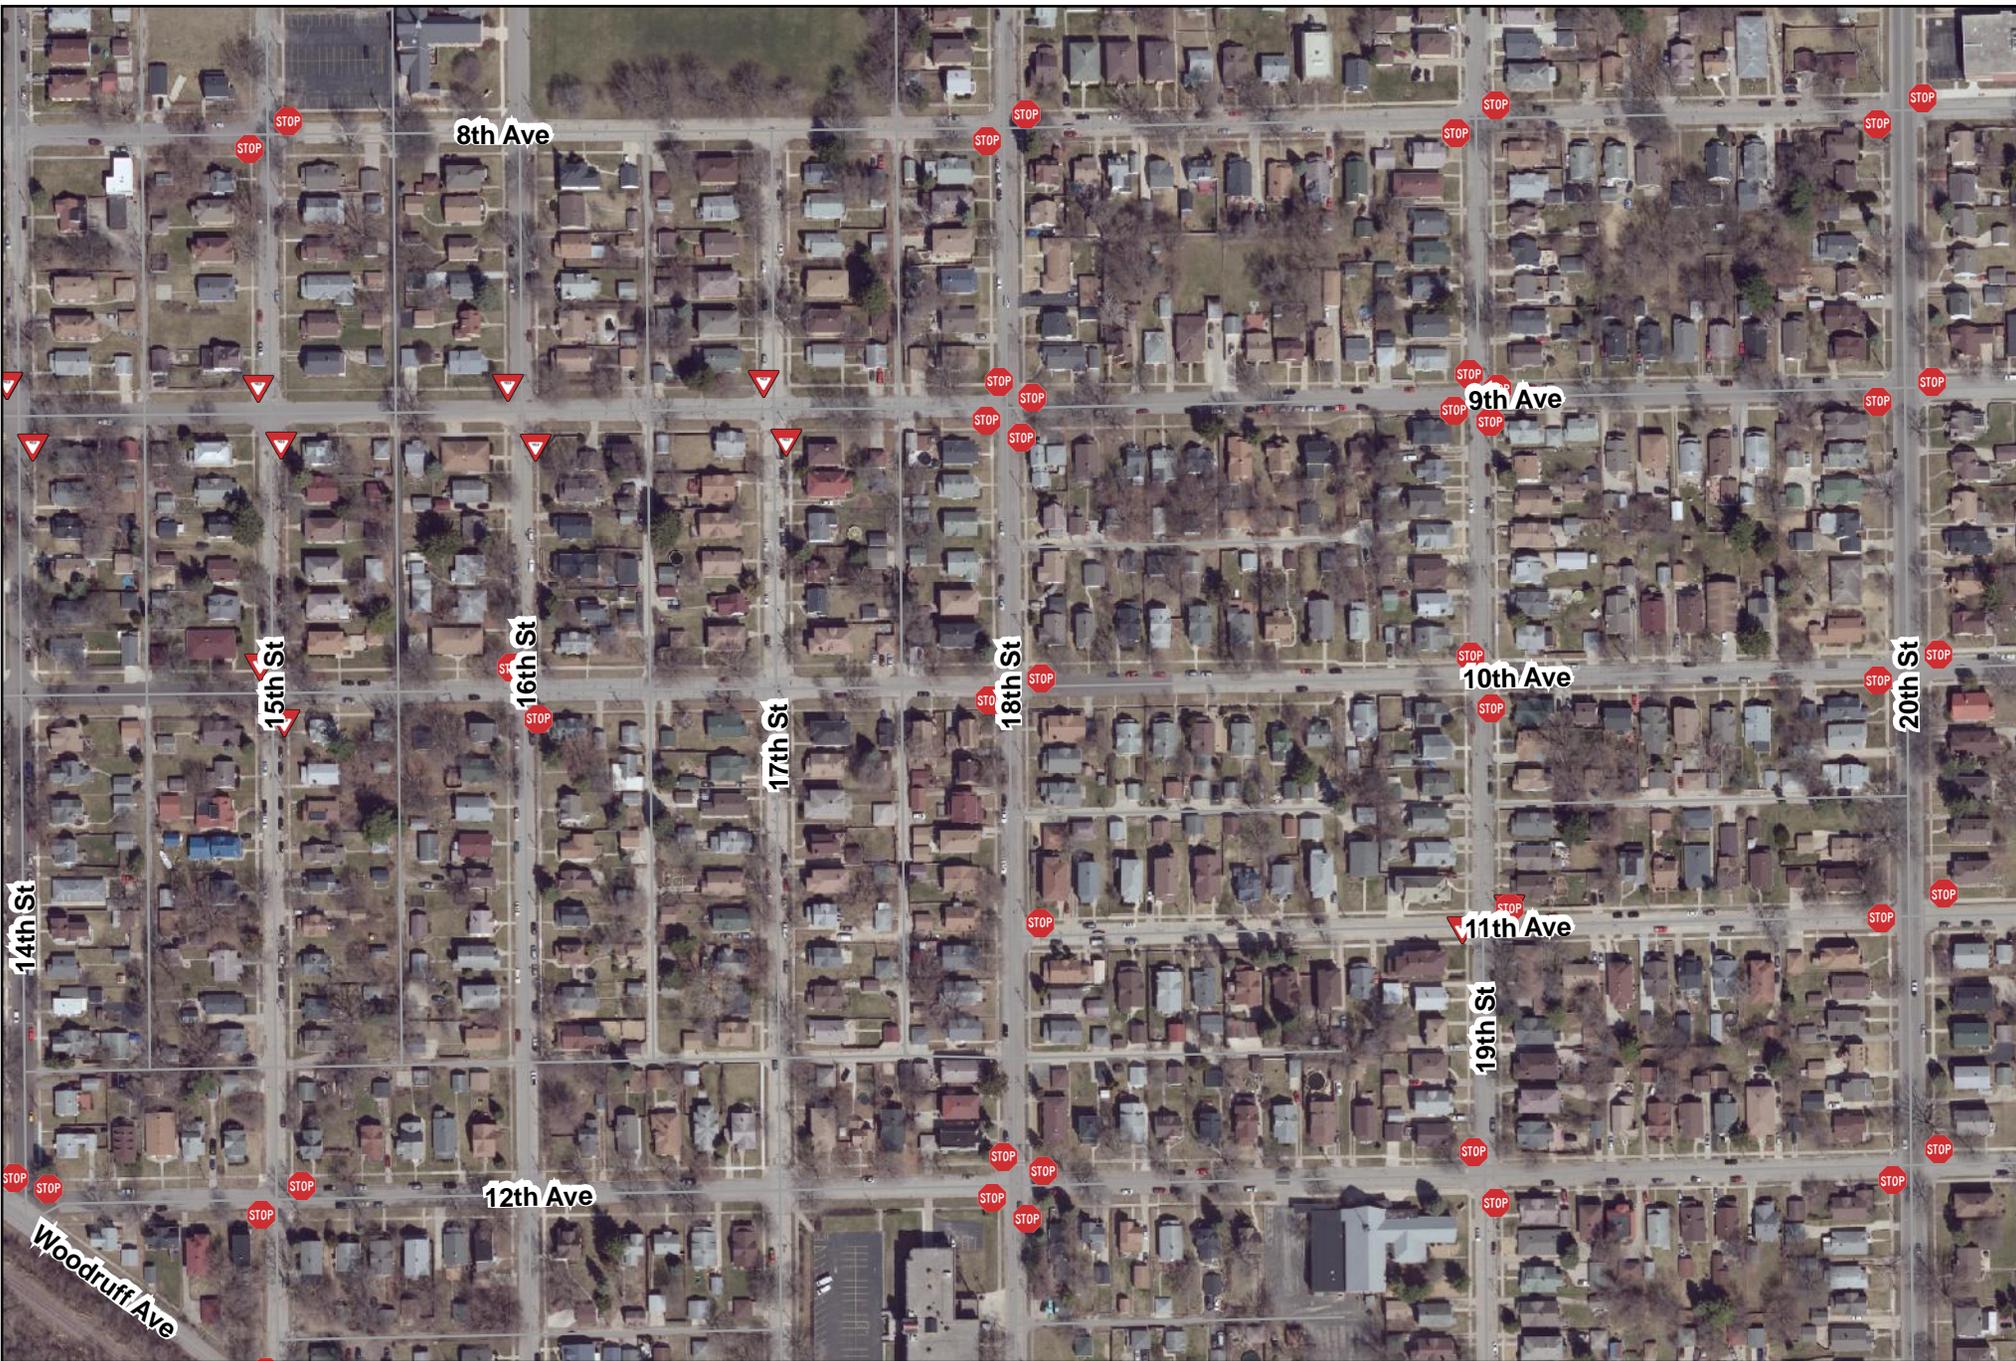

Also, I contacted some neighbors via the nextdoor website and I have several neighbors on board for this. They said they would sign a petition or whatever it takes to make it happen.

All-

By state law Hampton Ridge would yield to Lund as the non-through street yield to the through street at a "T" intersection. However if we want to install a Stop Sign at the intersection it would need to be go before the TC. I will get it on the agenda for September. I doubt there will be any issues as the Traffic Commission usual votes to "enforce the T" as we refer to it.

**Subject:** Heads Up Call from Citizen to Alderman Ervings Regarding Hampton Ridge Dr. & Holiday Dr. Intersections at Lund Ave.

If I remember correctly I know we're working on our end or have possibly looked into this stop sign issue that was never existent (at least dated back to 2012 on our end) at Hampton Ridge Dr. & Lund Ave.

Holiday stops for Lund. Hampton Ridge does not stop for Lund.

FYI – Same citizen called regarding concern because bus stop for apartment complex there is at Holiday for East side of apartments & Hampton Ridge for West side of apartments, and drivers almost plowed into children at Hampton Ridge burning through intersection going south turning onto Lund. Gave him update of our records, stated that I would bring up concern to Traffic Engineer. He stated he would work with calling his alderman Natavias Ervins to push for warranted need. Thanks.

If I have no record of this stop sign existing, does it have to go to traffic council for install if it's similar in nature to T-intersection one block East at Holiday where Holiday stops for Lund, or can I just install it? Thank you.
